

Embracing transformation as India evolves into a manufacturing power house.

CRISTOL™
Better Chemistry, Better Value

Krishna Antioxidants Pvt Ltd (KAPL) creates value for its clients by offering best in class solutions & process capabilities to effectively formulate chemistries.

Founded in 1991, we are one of India's leading manufacturers of speciality chemicals for industry segments such as Oil - Upstream and Downstream, Lubricants, Polymers, Water Treatment, Paints, Pharmaceuticals, Personal Care and Agrochemicals, catering to 32 countries worldwide under the trademark CRISTOL™.

CRISTOL™ has been a consistent award winner for outstanding export performance in domestic as well as international markets, recognised for Business Excellence & International Sales by leading industry associations namely: CHEMEXCIL, International Achievers Award, Zilla Udyog Kendra, Business Gaurav Awards & Indian Oil Certificate of excellence as a significant business partner as well as "Suraksha Puraskar" by The National Safety Council of India for Excellent performance in OSH.

The unprecedented COVID-19 pandemic continues to cause economic hardship for consumers, businesses and communities across the globe. Volatile oil demand/supply, production cuts and reduced requirement for chemicals/refined products that arise from industrial slow-downs and travel restrictions in the wake of this global pandemic, bring us to chalk-out crisis management plans in order to mitigate losses, recover and thrive. The disruptions brought about by this pandemic highlight the importance of resilient infrastructures, smart supply chains, logistics & diversified markets. These factors will become indispensable to our economy in the years to come.

Sophistication of technology is a fortunate aspect of the era we live in. As manufacturing resumes, we strive to use this opportunity to adapt to challenging times with the help of our response ready program, technical expertise and commitment to engineering innovative solutions, especially as the world seeks alternate markets.

We are certain that adherence to the highest standards of quality, health, safety & environmental practices in our business operations through implementation of QHSE Management systems based on ISO 9001, ISO 14001 and ISO 45001 will help propel us further and serve our customers better as we commence operations.

It is our endeavour to create a better tomorrow that will enable us to continue to meet the needs of our clientele and emerge as a trusted partner in the post COVID-19 world market.
