SUNIL KUMAR NUTHAKKI

DIRECTOR & CEO - SAI DEEPA ROCK DRILLS

Passionate Journey

Sunil Nuthakki has joined Sai Deepa, a family owned, DTH (Down The Hole) Product/Tools manufacturing company in 2010. He was appointed as CEO of Sai Deepa in 2013. After he joined, he has focused on diversifying the group into various Business Verticals, which include, Forgings, Top Hammer Tools, Tri-Cone Tools and Equipment Refurbishments and Contracts. All the verticals focus on different market segments like Irrigation, Mining, Construction, Oil & Gas, Automobile, Defense etc.

In Talk with Sunil K Nuthakki, the Persona Spearheading Sai Deepa to the global leader in Rock Drilling Tools & Solutions.

Sai Deepa Leads Rock Drilling Tools

Sai Deepa products cater to Water Well, Mining (Open Cast and Underground), Construction, and Oil & Gas. Tools relating to Down the Hole (DTH), Top Hammer (TH), Rock Breaker Tools, Anchoring Systems, Reaming Systems, Tri-Cone / Rotary bits, PDC and Horizontal Directional Drilling (HDD) tools for related applications are currently being Manufactured in the group along with the Forgings for captive consumption and also to various sectors including Equipment manufacturing and we will be stepping into Automobile industry soon.

Sai Deepa Global

We are a Rock Drilling Tools manufacturer based out of Hyderabad, India. We work with some of the top corporations in the Mining and Construction Industries. Some of our prestigious Indian clients include Vedanta Group, Reliance, Wipro, Navayuga, L&T, MEIL, SMS, etc., working for UCIL, HZL, HCL, and many more Tunneling projects and Irrigation Projects. We work closely with equipment manufacturers like Tata Hitachi, Hyundai, DAEMO, etc.,

We also work with many Global mining companies with our products available in around 50+ countries. Our tooling range, its availability, its quality, and the Overall Cost per meter are the differentiating factors of our company. Our offices in France, South Africa, Brazil, Portugal and the USA were started strategically, to make sure our entire range of products are available to different parts of the world. This makes our Motto **Just Drill!** Apt for our End Users.
