Preface

Dun & Bradstreet India is proud to announce the 2017 edition of its premier publication '**India's Top PSUs**'. The issue, which made its debut in 2008, is an insightful compendium of India's leading public sector units (PSUs). The publication provides valuable insights on their business operations and financial performance.

The publication '**India's Top PSUs 2017**' continues with the customary approach of profiling central public sector units (CPSUs) and also listing of the State PSUs. The 'Overview' section is based primarily on in-depth analysis of the aggregate financial performance of all the CPSUs as well as of those featured in the publication.

Indian PSUs have been playing an important role in the economic development of the country during both pre as well as post-independence period. Initially established with the aim of achieving socio-economic development, these enterprises went on to become the pillars of the economy, establishing their footprints across diverse sectors. PSUs are the catalysts of growth, contributing significantly towards national product and revenue, generating large scale employment and emerging as assets of national importance. Their multiplier effect on the economy can be estimated by their gross turnover, which has increased from ₹ 14,733.2 bn in FY11 to ₹ 18,546 billion in FY16 growing at a CAGR of 4.4%. They are also the drivers of socio-economic growth and balance in the country. In FY16, central public sector units (CPSUs) employed over 1.2 mn people.

The government's focus on policy certainty, predictability, and continuity is giving a strong boost to business confidence in the country. The implementation of the GST Bill and the insolvency and Bankruptcy Code reflects the Government's firm intent on reviving the investment climate and improving ease of doing business scenario in India. The 'Make in India' programme, various financial inclusion initiatives, improvement in ease of doing business, implementation of critical reforms in the areas of land, labour and taxation, focus on skill development and macro-economic stability are expected to be key factors that would provide a strong fillip to the growth of PSUs going forward. PSUs have always played a leading role in ensuring the availability of finance, energy production, the supply of sensitive goods & services, providing employment and contributing to the public exchequer. It is a known fact that if India has to get back onto a path of double-digit growth, PSUs will have to play a major role in this acceleration.

Thus, PSUs will continue to play a vital role in the socio economic development of the country. **India's Top PSUs 2017** is an endeavour to capture the essence of growth and performance of the public sector in India and provide the leading players the unique advantage of Dun & Bradstreet's global footprint in disseminating vital and useful information about them to a wider audience.

We are confident that this publication will serve as an authoritative and useful ready reference tool for business leaders globally. I hope you enjoy reading this issue of '**India's Top PSUs 2017**' and look forward to your comments and suggestions.

QUALITY OF LIFE SERVICES

Foreword

Dun & Bradstreet is pleased to announce the release of the tenth edition of its premier publication, '**India's Top PSUs 2017**'. The publication has consistently served as compendium on the financial performance of Indian public sector undertakings (PSUs). Dun & Bradstreet's global footprint and market reach will ensure that the publication receives international exposure as a premier resource on the Indian public sector undertakings.

The year 2016 was a difficult year for the global economy. And as highlighted in the recently released report by World Bank, the 2017 outlook continues to face headwinds from political uncertainties in number of countries. These include the policy direction of the new US administration, the outcome of the Brexit negotiations and elections in a number of major European countries. Positively, the threat of deflation is abating as inflation picks up towards central bank targets in many advanced countries, including the US and Europe.

Against this backdrop, the Indian economy has continued to exhibit growth prospects on the back of strong economic fundamentals. Over the past few years, the Indian economy has undergone a paradigm shift and India has successfully positioned itself as the most dynamics emerging economy and is expected to remain the fastest growing on the back of robust private consumption, strong domestic demand, and significant domestic reforms which are gradually being implemented by the government. The World Bank has projected the Indian economy to grow by 7.2% in FY17 and 7.5% in FY18.

The Indian public sector undertakings (PSUs) have significantly contributed to the country's economic resurgence. Since the economic liberalisation in 1990-91, they have exhibited resilience against the global economic slowdown and have been major contributors to India's growth. However, challenges related to productivity and efficiency pose major barriers to their growth. Faced with stringent regulations, technological obsolescence, and unavailability of suitably skilled manpower, PSUs need to constantly fine tune their business and growth strategies with increasing focus on efficiencies and quality of services.

In an increasingly technology driven environment, these companies need to adopt technology solutions that not only enable them to align their organisation's business needs but also help them achieve growth and efficiencies. To achieve competitive advantage, PSUs need to leverage emerging technologies and best practices. They also need to adopt innovative ways of analysing data and tracking business performance, in order to take their enterprises to the next level of growth.

Dun & Bradstreet believes that PSUs with their extensive pan-India presence support the government in the implementation of their programs and initiatives. Without the support of PSUs, achieving the targeted growth would be a herculean task. PSUs play a vital part in developing the support system that India requires to achieve the targeted growth and development. Therefore, monitoring the performance of PSUs becomes significant along with highlighting their journey.

'**India's Top PSUs 2017**' will be a valuable source of insight on the Indian PSUs. Dun & Bradstreet's footprint and global reach will ensure that this publication will stand as an effective platform to reach out to potential partners on a global scale.

We hope you will enjoy reading this publication. We look forward to receive your feedback and suggestions.

Executive Summary

Public Sector Undertakings (PSUs) are playing a key role in the Indian economy and are enabling the nation to achieve inclusive socio economic development. Over the years, PSUs have managed to establish their footprints across multiple critical sectors such as coal, oil & gas, petroleum, power etc. The significance of their contribution to the economy can be gauged from the fact that Central Public Sector Enterprises employed around 1.2 mn people in FY16. The publication, '**India's Top PSUs 2017**' captures the financial performance of top Central PSUs during FY16.

The 2017 edition of the publication profiles 170 Central PSUs which include 131 companies from the non-financial segment, 21 public sector banks, 8 insurance companies and 10 companies from the FIs/NBFCs segment.

Some of the key financial performance highlights of the featured PSUs during FY16 are:-

- The aggregate total income of the 170 profiled CPSEs stood at around ₹ 31 trillion in FY16; showing a decline of nearly 2% as compared to FY15
- In terms of share in aggregate total income, the oil – refining & marketing sector was the largest contributor with a share of 30% in the aggregate total income of the profiled PSUs; followed by the banking sector with a 23% share
- The aggregate net profit of the 170 profiled CPSEs stood at nearly ₹ 946.6 billion, showing a decline of nearly 32% as compared to FY15
- The aggregate net profit of the oil – refining & marketing recorded nearly 84% growth in FY16 compared to the previous year
- Maharatnas, which account for nearly 40% of the aggregate total income of CPSEs, recorded a 13% decline in their total income in FY16.

The public sector enterprises went through challenging times in FY16. However, we are currently witnessing strong measures by the government, mostly in the areas of divestment, for strengthening the PSU sector. The role of PSUs is expected to be accentuated in building a New India and we are confident that PSUs will continue to strongly support the Indian economy and become more globally competitive through various measures of product diversification, digitalization and technical collaborations among others. Dun & Bradstreet will continue to track the performance of Central PSUs and keep the reader updated on various developments through future editions of the '**India's Top PSUs**'.

Thousands of years
ago green turned
black deep inside
Mother Earth.
And today, we
mine with the
thought of returning
green back to her.

* An original picture of plantation on OB dump in Lakhanpur open cast mine of MCL.

Some of our efforts in a bid to turn Coalfields into 'Green Fields' are.....

- Planting over 5.15 million trees in and around MCL's command area in Odisha.
- Being the 1st company to introduce Eco-friendly Surface Miner In 1999, which completely eliminates drilling, blasting and crushing operations in mining of coal.
- Installing Mobile Water Sprinklers, Fixed Automatic Sprinklers, Instant Showering Systems and Mist Spraying arrangements at CHP to reduce air pollution.
- Treating industrial waste water in Mine Discharge Treatment Plant and introducing Sedimentation ponds, oil & grease traps in workshops and domestic effluent treatment plant in colonies to help minimise pollution.

Methodology

The tenth edition of '**India's Top PSUs**' publication features 170 public sector undertakings (PSUs). The publication comprises - central public sector enterprises (CPSEs) which are a part of the Department of Public Enterprises (DPE) list (operational enterprises as on 31.03.2016); public sector scheduled commercial banks (SCBs) as defined by the Reserve Bank of India (RBI) on 31.03.2016, excluding regional rural banks (RRBs); public sector insurance companies as defined by the Insurance Regulatory and Development Authority of India (IRDAI) and other public sector NBFCs/financial institutions formed by the Act of Indian Parliament. The publication also includes a listing of state PSUs as collected from the websites of the Ministry of Corporate Affairs and Comptroller and Auditor General of India and websites of State Governments.

The status of CPSEs (Maharatna, Navratna and Miniratna) is as enumerated by the DPE as on May 2017. Companies involved only in the business for profit have been included in the publication, while those that are involved in charity or other social causes have been excluded. Central public sector undertakings which have ceased to exist due to merger/amalgamation post 31.03.2016 are also excluded. Central public sector undertakings, for which the government has proposed strategic disinvestment through majority stake sale, complete stake sale; merger/amalgamation, proposed to be shut down etc. are marked with * in the listings for reference.

The initial selection of the PSU data was based on compilations from various sources such as the DPE, RBI, IRDAI, BSE, Dun & Bradstreet's database and data from various ministries. The shortlisted PSUs were sent a detailed questionnaire seeking operational and financial information. This publication features PSUs with a standalone total income equal to or above ₹ 1 bn during FY16 as a selection criterion. Information contained in this publication has been procured from authentic and credible sources available in the public domain such as company annual reports/documents, websites, DPE, and the registrar of companies. Further, companies that did not respond with critical data and/or whose information is not available in the public domain were not considered for this study to ensure that all information contained in this publication is verified and authenticated.

All the financial information in the publication is based on standalone financials as per the revised Indian Accounting Standard or old GAAP adopted by the company and available in the public domain such as from annual reports or financial statements (audited or provisional) or as disclosed by DPE in its Public Enterprise Survey 2015-16.

The various financial computations are as per Dun & Bradstreet methodology and have been explained explicitly in the 'Definitions and Calculations' section. Each company featured in the publication has been allotted a unique identification number (D-U-N-S[®] - Data Universal Numbering System). This will help readers locate and obtain full-fledged information reports on these companies from the Dun & Bradstreet database.

The editorial team is confident that '**India's Top PSUs 2017**' will prove useful. Further, we would be pleased to receive your invaluable feedback and suggestions.

साथ बढ़ें समृद्धि की ओर

पृथ्वी का अधिक पोषण भारत की अधिक समृद्धि

छटें दशक में अपनी शुरुवात से ही आरसीएफ भारत की कृषि उत्पादकता को बढ़ानेवाली एक प्रमुख शक्ति रही है। हमारी कामयाबी की जड़ें हमारे विश्वास में हैं, हमारा विश्वास है कि कृषक समुदाय की अधिकारिता ही सम्मिलित विकास की ओर अग्रसर करती है। लम्बे समय से हम भारतीय किसानों के सच्चे और विश्वसनीय हमसफर रहे हैं। निरंतर कृषि के माध्यम से निरंतर आत्मनिर्भरता आज राष्ट्र की जरूरत है और हम गुणवत्तापूर्ण कृषि इनपुट और प्रभावी कृषि सेवा किसानों को प्रदान करके मिट्टी की उचित देखरेख के साथ खेतों की उच्च उत्पादकता सुनिश्चित कर रहे हैं।

हमारे प्रेरणादायी निष्पादन :

- देश के अग्रणीय उर्वरक निर्माता।
- पिछले पाँच दशकों से भारतीय किसानों को समर्पित सेवाएँ।
- उर्वरक क्षेत्र में पहली पाँच कंपनियों में स्थान।
- 'उज्ज्वला' यूरिया, संयुक्त श्रेणी 'सुफला' (15:15:15 और 20:20:0) पानी में घुलनशील उर्वरक 'सुजला', जैविक उर्वरक 'बायोला' सूक्ष्म पोषक तत्वोंवाला 'माइक्रोला' जैसे कई उत्पाद।
- रासायनिक क्षेत्र में अग्रणी, 20 औद्योगिक रसायनों का उत्पादन।

भविष्य की राह :

- 1.27 मिलियन टन प्रति वर्ष यूरिया बनाने के लिए विस्तारित परियोजना।
- सीआईएल, गेल और एफसीआईएल के साथ मिलकर कोल गैसिफिकेशन के माध्यम से तालचर में उर्वरक संकुल स्थापित करना।
- मध्य पूर्वी संसाधन समृद्ध देशों में यूरिया के लिए संयुक्त उद्यम नरियोजनाएँ स्थापित करना।
- रॉक फास्फेट और पोटैश के लिए लम्बी अवधि का ऑफटेक करार करना।
- निरंतर विकास पर सशक्त रूप से ध्यान केंद्रित करना।

DEFINITIONS & CALCULATIONS

Definitions & Calculations

This section defines financial terms and ratios used in this publication.

- Total Income - Refers to the total revenue including other income as reported in the company's stand-alone financial statements.
- Net Profit - Refers to the profit after tax as reported in the company's standalone financial statements.
- Net Worth - Is the sum of share capital, equity equivalents and reserves & surplus. Equity equivalents include share warrants, ESOP etc. Debit balance appearing in the profit and loss account and foreign exchange translation reserve account, revaluation reserves, miscellaneous expenditure, and intangibles such as patents, goodwill, trademarks, copyrights, know-how, brands, licenses, rights, computer software and the likes are deducted from the Net Worth.
- Net depreciation as mentioned in profit & loss account.
- Interest cost net of capitalisation wherever available

Ratios

Particulars	Formulae
EBITDA	Profit Before Tax + Interest Expense + Depreciation and Amortisation Expense
EBIT	EBITDA – Depreciation and Amortisation Expense
EBITDA Margin (%)	$(\text{EBITDA} / \text{Total Income}) * 100$
Net Profit Margin (NPM) (%)	$(\text{Net Profit} / \text{Total Income}) * 100$
Return on Net Worth (%)	$(\text{Net Profit} / \text{Average Net Worth}) * 100$
Dividend Payout (%)	$\text{Equity Dividend} / (\text{Profit Before Tax as per Annual Report} - \text{Taxation Expense} - \text{Preference Dividend}) * 100$
Capital Employed	Long term debt + Net Worth
Return on Capital Employed (%)	$(\text{EBIT} / \text{Average Capital Employed}) * 100$
Return on Assets	$(\text{PAT} / \text{Average Total Assets}) * 100$
Debt-to-Equity (times)	$(\text{Total Debts}) / \text{Shareholder's Fund}$
Shareholder's Fund	Equity Share Capital + Preference Share Capital + Reserves and Surplus – Accumulated Losses – Deferred expenses
Total Debt	Short Term Debt + Long Term Debt + Current maturities of Long Term Debt
Total Assets	Non-Current Assets + Current Assets (excluding accumulated losses and deferred expenses)
Average Total Assets	$(\text{Opening Total Assets} + \text{Closing Total Assets}) / 2$
Average Net worth	$(\text{Opening Net worth} + \text{Closing Net worth}) / 2$
Average Capital Employed	$(\text{Opening Capital Employed} + \text{Closing Capital Employed}) / 2$
Interest Coverage (times)	$\text{EBIT} / \text{Interest Expense}$

The publication also includes terms and indicators specific to the banking sector.

Ratios

Particulars	Formulae
Total Business	As reported by the bank in its standalone financial statements OR Total Advances + Total Deposits as provided by the RBI
Total Assets	Cash in hand + Balances with RBI + Balances with banks inside/outside India + Money at call + Investments + Advances + Fixed Assets + Other Assets
Net Interest Margin	As reported by the bank in its standalone financial statements
Net Interest Income	Total Interest earned – Total Interest expended
Net NPA Ratio	As reported by the bank in its standalone financial statements
Return on Assets (ROA)	As provided in Company's Annual Report

The publication also includes terms and indicators specific to the insurance sector

- Net Commission Ratio as given in the Annual Report
- Solvency Ratio as given in the Annual Report
- Retention Ratio as given in the Annual Report
- Net Premium Earned is the sum of total of net premium earned from fire insurance, marine insurance, miscellaneous insurance and life insurance business

PSU UPDATE

OVERVIEW OF PSUs IN INDIA

Overview of PSUs in India

The role of public sector enterprises (PSEs) in driving the socio-economic development of India cannot be undermined. Since inception, PSEs have been the backbone of the Indian economy and were set up with the mandate to:

1. Achieve the broad macroeconomic objectives of higher economic growth.
2. Achieve self-sufficiency in the production of goods/services.
3. Facilitate maintaining the balance of payments.
4. Ensure stability in prices and create benchmarks for prices of essential items.
5. Promote balanced regional development.
6. Create employment opportunities.

Since independence, the number of PSEs in India has grown from a mere five in 1950-51 to 327 in 2015-16, of which 244 are operational. Over these years, they have managed to establish their footprints across multiple key sectors such as petroleum, oil & gas, power, engineering etc. They contribute approximately 18% to the India's GVA and employ around 1.2 mn people. Further, the 47 listed CPSEs accounted for 12% of BSE's total market capitalization as on 31st January 2017. Four of the seven Indian companies that were a part of Fortune 500 Global companies list of 2016, were Indian PSEs. To add, the 2017 Forbes Global 2000 list featured 58 Indian companies of which 27 are PSEs.

These numbers speak volumes about Indian PSUs and their achievements and truly deserved to be called RATNAS of India's growth story.

Turnover Analysis

Topline performance of the Public Sector Enterprises continue to reel under the economic pressure

Source: Department of Public Enterprises – Public Enterprises Survey 2015-16

From FY12 to FY14, the aggregate turnover growth of the PSEs slowed down from 21.6% in FY12 to 6.2% in FY14. However, the turnover growth

of the PSEs witnessed degrowth in FY15 and FY16 on back of the unusual volatility in the global environment with a significant risks of weaker global activity. This period was starkly characterized by the fall in global commodity prices – from oil to natural gas to minerals, weak economic growth, and volatile financial markets. At a broader level, though the Indian economy was shielded from these global events due to strong economic fundamentals, there were few sectors such as steel, heavy engineering, petroleum (refining & marketing), crude oil, trading and marketing had to bear the brunt of these global economic headwinds. The performance of the public sector enterprises operating in these sectors was impacted due to these economic developments. The aggregate turnover of the PSEs degrew by 7% in FY16, from 19,951.8 bn in FY16 to 18,546.7 bn in FY15 as compared to degrowth of 3.4% in FY15 as compared to FY14.

Despite the decline in revenue growth Petroleum sector continues to account for more than 50% share in total turnover of PSEs

Group-wise analysis of the turnover of the PSEs indicates that Petroleum (Refining & Marketing) contributed to more than 50% of the total turnover of the PSEs during FY16. Other top revenue contributing sectors include trading & marketing and power generation, each accounting for 10.4% and 5.6% share in the total turnover of the PSEs respectively.

Of the five broad sectors under which the PSEs are classified, PSEs belonging to Electricity (generation & transmission) and services sector reported y-o-y growth in total turnover in FY16, while agriculture, mining and manufacturing sector reported y-o-y decline in their revenue growth.

Table 1: Sector-wise turnover of CPSEs

Sectors	Turnover FY15 (₹ bn)	Turnover FY16 (₹ bn)	Turnover Growth (%)
Agriculture	10.6	9.3	(11.9)
Mining	2,226.5	2,126.8	(4.5)
Manufacturing	12,865.2	11,409.7	(11.3)
Electricity	1,216.4	1,253.8	3.1
Services	3,633.1	3,746.9	3.1
All CPSEs	19,951.8	18,546.7	(7.0)

Source: Department of Public Enterprises – Public Enterprises Survey 2015-16

Heavy degrowth in the turnover of the PSEs in the manufacturing sector was primarily due to the decline in top-line performance of the PSEs belonging to steel (-11.8%), petroleum (-12.8%), fertilizers (-2.6%), heavy engineering (-14.1%), consumer goods (-3.0%) and textiles (-6.3%). Services sector also recorded a subdued growth mainly due to degrowth of 2.3% in revenue of trading and marketing subsector which alone contributes to more than 50% to the total revenues of the services sector PSEs. This growth was largely supported by healthy growth of 21% of PSEs belonging to industrial development and tech. consultancy services.

In line with the top-line performance of the operational CPSEs, the analysis of the 161 profiled CPSEs led to the finding that the total income of the profiled CPSEs degrew by almost 11% in FY16 as compared to a degrowth of 1% in FY15, mainly due to significant fall in commodity prices. This degrowth can be attributed mainly to the degrowth in total income of the manufacturing sector, which accounts for 45% to the total income of the profiled CPSEs. The total income of 48 CPSEs in the manufacturing sector degrew by 13.3% in FY16 as compared to degrowth of almost 7% in FY15.

Profit Analysis

Declining input prices boosts up the profitability of the PSEs

Source: Department of Public Enterprises – Public Enterprises Survey 2015-16

The analysis of the net profit of the PSEs for last 5 years indicate that the net profit of the PSEs declined y-o-y by 20% in FY15 after reaching a y-o-y peak of 17% in FY13. However, in FY16 the net profit rebound by 12%, from 1,028.7 bn in FY15 to ₹ 1,157.7 bn in FY16, primarily due to decline in prices of raw material especially the crude oil, metals and ores and other input prices. The sectors such as steel, heavy engineering, trading and marketing, consumer goods, telecommunication services and chemicals and pharmaceuticals reported heavy losses.

Further, the number of profit making PSEs increased from 159 in FY15 to 165 in FY16. The profit of the profit making PSEs increased almost 11% from 1,303.6 bn in FY15 to ₹ 1,445.2 bn in FY16. Of the 165 profit making PSEs, top 10 PSEs accounted for over 63% of the total profit of the profit making PSEs. Amongst the top 10 profit making PSEs, Coal India Ltd, Oil & Natural Gas Corporation Ltd and Indian Oil Corporation Ltd were ranked first, second and third respectively, contributing 17.8%, 17.5% and 11.3% respectively to the total profits of the profit making PSEs.

Further, during FY16, 78 PSEs reported losses as against 76 in FY15. The loss of loss making PSEs increased by 4.5% to ₹ 287 bn in FY16 as compared to ₹ 275 bn in FY15. The top 10 loss making PSEs accounted for 79.8% of the total losses of the loss making PSEs. Amongst the top 10 loss making PSEs, Steel Authority of India Ltd, Bharat Sanchar Nigam Ltd and Air India Ltd were identified as the top three loss making PSEs together accounting for 51.6% of losses of all the loss making PSEs.

Interestingly, the net profit analysis of the 161 profiled CPSEs indicate that while the net profit of all CPSEs witnessed a growth in FY16, the net profit of profiled CPSEs witnessed a degrowth. During FY16, the net profit of the profiled CPSEs declined by almost 36% as compared to degrowth of 12% in FY15. This degrowth was mainly due to the combined losses of 33 CPSEs belonging to various sub-sectors including banks. These CPSEs made losses amounting to ₹ 500 bn in FY16 as against the net profit of 1,451 bn made by 111 profit-making CPSEs.

Contribution to the Central Exchequer

PSEs contributed close to ₹ 3 trillion in FY16 to the Central Exchequer

Table 2: PSEs contribution to the Central Exchequer (in ₹ bn)

Particulars	FY12	FY13	FY14	FY15	FY16	Growth (%) over last year
Payment of Dividend	285	288.6	455.2	381.7	437.3	14.6
Payment of Interest	20	7.96	7.45	4	74.8	1,770.5
Excise Duty	612	591.8	638.3	807.0	1,396.0	73
Custom Duty	115	60.8	68.1	62.8	99.5	58.4
Corporate Tax	442	446.1	815.5	482.6	428.8	(11.1)
Dividend Tax	61	64.7	92.2	103.1	118.8	15.2
Sales Tax	22	28	31.4	42.8	36.6	(14.4)
Service Tax	33	63	51.2	59	70.2	19.1
Other Duties & Tax	34	81	49.6	62.9	118.7	40.0
Total	1,624	1,632.1	2,209.8	2,005.9	2,780.7	38.6

Source: Department of Public Enterprises – Public Enterprises Survey 2015-16

Public Sector Enterprises are one of the major contributors to the central exchequer. PSEs contribution to the Central Exchequer came from payment of dividend, payment of interest, excise duty, custom duty, corporate tax, dividend tax, sales tax, service tax and other duties & tax. During FY16, the total contribution of PSEs to the Central Exchequer increased by 38.6% from 2,005.9 bn in FY15 to 2,780.7 bn in FY16.

Performance of Ratnas

Of the total of 98 Ratnas (Maharatna, Navratna and Miniratna), 88 Ratnas have been featured in the publication. These 88 Ratnas consists of 7 Maharatnas, 17 Navratnas, and 64 Miniratnas (Category-I and Category-II) and together account of 66% of the total income of all the profiled CPSEs. As such, these Ratnas can rightfully be called as the Barometer of the performance of the Indian CPSEs. The total income of all profiled Ratnas put together degrew by 11% in FY16 as compared to FY15, which was directly reflected in the total income growth of all the CPSEs which also degrew by almost 11% during the same period.

Maharatnas and Navratnas, which account for only 15% of all the profiled CPSEs, contribute more than 52% to the total income of the profiled CPSEs. This clearly outlines the importance of Maharatnas and Navratnas to the overall performance of CPSEs.

The analysis of financial performance of Maharatna, Navratna and Miniratna CPSEs indicates degrowth in their total income as well as their net profit. The total revenue of the Maharatna CPSEs degrew by 13% in FY16 as compared to degrowth of 6% in FY15. This degrowth was due to the steep decline in the revenues of 5 Maharatnas belonging of oil – refining & marketing, crude oil, steel and heavy engineering industries, on account of falling commodity prices and Chinese steel dumping. The net profit of the Maharatnas decreased by 5.3% in FY16 as compared to FY15 when it declined by 19%. This was mainly on account of heavy losses made by two Maharatnas i.e BHEL and SAIL.

The total income of the 17 Navratnas declined by 7.7% in FY16 as compared to decline of 5% in FY15. This decline was mainly due to the declines in revenues of three Navratnas i.e. HPCL, NMDC and BPCL, who jointly account for almost 73% of total revenues of all Navratna CPSEs. The revenues of these companies declined by over 12% in FY16 due to the lower realization on the value of the goods sold on account of significant drop in the global commodity and petroleum product prices. The net profit of the Navratna CPSEs declined by 2% in FY16 as compared to FY15 when it declined by 15%.

The total income of the 64 Miniratnas declined by 11.3% in FY16 as compared to FY15 when it declined by 3.3%. Their net profit on the other hand remained unchanged in FY16 as compared to FY15 when it declined by 16%.

Some of the key financial performance highlights of the featured PSUs during FY16 are:-

- The aggregate total income of the 170 profiled CPSEs stood at around ₹ 31 trillion in FY16; showing a decline of nearly 2% as compared to FY15
- In terms of share in aggregate total income, the oil – refining & marketing sector was the largest contributor with a share of 30% in the aggregate total income of the profiled PSUs; followed by the banking sector with a 23% share
- The aggregate net profit of the 170 profiled CPSEs stood at nearly ₹ 946.6 billion, showing a decline of nearly 32% as compared to FY15
- The aggregate net profit of the oil – refining & marketing recorded nearly 84% growth in FY16 compared to the previous year
- Maharatnas, which account for nearly 40% of the aggregate total income of CPSEs, recorded a 13% decline in their total income in FY16.

Conquering Newer Horizons

Utpal Bora
Chairman & Managing Director

Oil India Limited

India has been one of the highest importers of crude oil in the world. What measures do India and Indian oil companies need to take to help India reduce its dependence on oil imports?

In this regard, Oil India Limited (OIL) is trying its best to increase both its exploratory and producing acreages where no operations could be taken up for a long time due to absence of forest and environment clearance. Recently, we got approval from Forest Advisory Committee (FAC) of MOEF&CC, Government of India, towards re-grant of NINGRU PML which was pending from 2003. Moreover, we have increased our drilling and work-over efforts and are introducing different technology for enhancement of oil and gas production. It may be noted that our production of natural gas in 2016-17 of 2.937 BCM is highest so far by the Company.

What kind of impact do you foresee from the Government's vision of creating integrated oil & gas companies?

The details of the same are not yet fully known and hence, it is difficult to comment on the same.

Oil India has actively pursued a strategy of vertical integration into downstream sectors. How has this strategy helped the company?

OIL has 26 percent, 23 percent and 10 percent participating interest in Numaligarh Refineries Limited (NRL), Duliajan-Numaligarh Pipeline (DNPL) and Brahmaputra Crackers and Polymers Limited (BCPL) respectively. This entry into downstream business is yet not significant but it has helped in broadening our business portfolio. It will provide us opportunity in further foray in this area of business.

What are the key areas in which you plan to diversify? What is your strategy for non-conventional energy?

OIL has already entered into renewable energy business. It has set-up about 188 MW of wind and solar power.

How would you outline your capex outlook for the next 2-3 years?

For 2017-18, OIL has a capex plan of approximately ₹ 4300 crore. We intend to incur almost similar level of capex during next 2-3 years also, keeping in view our current and future E&P projects. These capex plans do not include investment in M&As which is incurred as and when any new acquisition takes place.

Maharashtra Industrial Development Corporation

Shri Sanjay Sethi
Chief Executive Officer

What plans does MIDC have for supporting Government's 'Make in India' program?

Infrastructure is an ever evolving need of the industry and a growth engine for industrial growth. To promote 'Make in India' program, MIDC has laid a huge emphasis on building industry ready infrastructure. The corporation is creating new industrial parks, textile parks and promoting establishment of integrated industrial areas and integrated IT townships. It is also providing facilities like common effluent treatment plants (CETP), solar energy generation, water treatment facilities at industrial areas and strong IT backbone for creating conducive ecosystem for the industry. MIDC is continuously taking measures for improving facilities and services for industry, to become a one stop solution for them. It has also partnered with DMICDC for the ongoing Delhi-Mumbai industrial corridor (DMIC) a mega infrastructure project, which is expected to cover an overall length of 1,438 km between Delhi and Mumbai, will have 17% of its project influence area in Maharashtra. To promote focus sectors under 'Make in India' program the State has announced policies like Textile and Electronics and has also released draft policies on Start-up and Defence for industry inputs.

Availability of adequate and timely infrastructure in terms of land, electricity, and water has been one of the biggest challenges affecting the industries. What plans does MIDC have to address the issue?

One of the best examples would be that MIDC at present has a transparent online land allocation process for allocating land to industrial projects with pre-defined timelines and the progress made thus far can be seen online. The state at present is both power and water self-sufficient, offering best quality power and low prices for industrial use of water.

Going forward MIDC has set key objectives to achieve balanced industrial development and facilitate entrepreneurs in setting up industries in the state.

India's rank in ease of doing business has improved significantly over the past three years. What measures is MIDC taking and is planning to take to improve Maharashtra's rank in ease of doing business?

In terms of ease of doing business, Maharashtra is among the top 10 states in the country. Maharashtra has now jumped from being an 'Acceleration required' state to 'Leaders' category with increasing compliance from 49.4% in 2015 to 92.86% in 2016, it is a formative change achieved by any state. MIDC has recently implemented a Geographic Information System (GIS) system along with details of available infrastructure (road, water and gas pipelines, etc.). The corporation has implemented an online system for reducing human touch points for various processes. It has implemented software based system for building plan approval, online process of granting Construction Permit, third party certification of structural design, architectural drawings for reducing the turnaround time. It has also established a dedicated conflict resolution mechanism for investor grievances related to land and construction permits. MIDC's land allotment system allows online application and payment and careful application scrutiny.

What plans does MIDC have for expanding its reach to remote towns and villages of Maharashtra?

MIDC has industrial townships across Maharashtra and also plans to create new green field industrial townships in remote towns. With the emergence of new growth corridors like Mumbai – Nashik – Aurangabad – Amravati – Nagpur, Mumbai – Pune – Satara – Sangli – Solapur and Mumbai – Ratnagiri – Sindhudurg, MIDCs aims to bring the less industrially developed areas of Vidarbha, Marathwada and Konkan by creating new industrial areas and bringing them functionally closer to growth centers like Mumbai and Pune.

QUALITY OF LIFE SERVICES

The answer to climate change, is change.

EYE CATCHERS

Change, from the way we now produce and consume energy, to a greener mix of oil and coal-powered energy coupled with the use of natural gas as an energy source. Natural gas emits an estimated 40-70% less carbon dioxide than other fuels, reducing the growing pressure on our ecosystem. Moreover, natural gas produces less sulphur dioxide, nitrogen oxides and particulate matter. Petronet LNG is leading the change for a better environment by meeting about 40% of India's total gas requirement and continuously striving to do things the greener way.

Petronet LNG Limited

World Trade Centre, 1st Floor, Babar road, Barakhamba Lane, New Delhi-110001 (INDIA)

Conquering Newer Horizons

With a legacy traversing three centuries from the successful commercial discovery of crude oil at Digboi in 1889 and Independent India's first oil field in Naharkatiya - all in the north eastern state of Assam - Oil India Limited was born on 18th February, 1959 to increase the pace of exploration in Northeast India.

Dogged determination of some of the finest oil & gas explorers and a committed workforce has enabled OIL to expand its pan India presence and spread its wings overseas with footprints in countries such as Libya, Gabon Nigeria, Sudan, Yemen, Venezuela, USA, Bangladesh, Mozambique, Russia and Myanmar.

Today, as a Navratna PSU, Oil India Limited is fully committed to achieve the co-created vision of becoming "the fastest growing energy company with Global Presence" with special emphasis on carrying out its duties as a responsible corporate citizen.

Setting the right pace globally

Performance and Credit Rating Scheme for Small Enterprises

On behalf of the Ministry of Micro, Small & Medium Enterprises, NSIC is implementing "Performance & Credit Rating Scheme" for micro and small enterprises (MSEs). The rating serves as a trusted third party opinion on the unit's capabilities and credit worthiness. A good rating enhances the acceptability of the rated unit in the market and also makes it access to quicker and cheaper credit and thus helps in economizing the cost of credit. The scheme is being operated through accredited rating agencies. The fee to be paid by the MSEs for the rating, is subsidized by the Government to the extent of 75% of the rating fee up to a maximum of Rs.40,000/-.

Other NSIC Schemes

Single Point Registration for Government Purchase

Raw Material Distribution Scheme

Consortia and Tender Marketing

Credit Support for Raw Material

Incubation for Small Enterprise Establishment

Chennai Petroleum Corporation Limited

536, Anna Salai, Teynampet, Chennai – 600018, TN
Website: www.cpcl.co.in

Dun & Bradstreet D-U-N-S® No 91-573-9528

About the Company

Chennai Petroleum Corporation Ltd (CPCL) was incorporated in 1965 as a JV between the GoI, AMOCO and National Iranian Oil Company. In 2000-01, GoI sold its stake to Indian Oil Corporation as a part of restructuring, thereby making IOC the major shareholder. The company has been conferred with Miniratna Category - I CPSE status by GoI. CPCL is engaged in manufacturing of various petroleum and speciality products used in industries like fertilizers, power, petrochemicals etc. The product portfolio of the company include LPG, motor spirit, superior kerosene, aviation turbine fuel, high speed diesel, naphtha, bitumen, lube base stocks, paraffin wax, fuel oil, hexane and petrochemical feed stocks. CPCL has two refineries one each in Manali and in Cauvery Basin at Nagapattinam with a combined refining capacity of 11.5 MMTPA. In FY16, the company's crude throughput stood at 9.64 MMT comprising 7.24 MMT of imported crude throughput and 2.40 MMT of indigenous crude throughput. During the year, the company processed two new crudes namely, Al Shaheen & Qatar Condensate and Akpo Blend.

About the Company

Coal India Ltd (CIL) was incorporated in 1974 as Coal Mines Authority Ltd and acquired its present name in 1975. The company was formed to promote and develop coal mines which were nationalized by the Government in 1973. Coal India was granted Maharatna status in 2011. In FY16 CIL contributed to about 84% of the country's coal production. The company operates 82 mines with seven wholly owned coal producing subsidiaries and a mine planning and consultancy subsidiary company. CIL is present in eight states in India and has a mining company in Mozambique named Coal India Africana Limitada. CIL's activities include identification of coal reserves, exploration, design, implementation and optimizing operations for coal extraction in its mines. IN FY16, the company produced 538.7 mn tonnes (MTs) of coal, which was 44.5 MTs higher than that produced during FY15. The company operates 15 coal washeries with the total coal washing capacity of 36.8 mn tonnes per year (MTY). Of these 15 washeries, 12 are coking washeries and 3 are non-coking washeries.

GAIL (India) Limited

About the Company

GAIL (India) Ltd (GAIL) was incorporated in Aug 1984 as a CPSU under the Ministry of Petroleum & Natural Gas (MoP&NG). The company started its journey with construction, operation & maintenance of the Hazira - Vijaypur - Jagdishpur (HVJ) pipeline project. Today, GAIL has diversified into natural gas transmission, processing, distribution, petrochemicals, power as well as exploration and production. GAIL is the largest natural gas company in India with presence across the entire gas value chain.

Business Operations

GAIL is primarily engaged in the marketing and transmission of natural gas and LPG, petrochemicals, production of LPG and other liquid hydrocarbons.

- Natural Gas Transmission:** GAIL has an existing network of 11,000 kms of robust gas pipeline infrastructure with a capacity of 210 MMSCMD which accounts for nearly 75% of the total natural gas pipeline transmission.
- LPG & Other Liquid Hydrocarbons:** GAIL operates 6 LPG plants with a production capacity of 1.40 MMT of LPG and other liquid hydrocarbons namely- Propane, Pentane and Naphtha. Additionally, the company is also engaged in LPG transmission, operating exclusive pipelines for third-party usage. It operates two LPG pipeline transmission systems - Jamnagar Loni LPG pipeline & Vizag-Secunderabad Pipeline, with a network length of 2,038 kms and a transport capacity of 3.83 MMTA of LPG. While LPG is being sold exclusively to PSU Oil Marketing Companies (OMCs), other LHC products are sold directly to industrial customers in retail segment.
- Petrochemicals:** GAIL operates a gas based petrochemical plant in Pata, UP with a capacity of 0.81 MMTA and owns operates another green field petrochemical project through its subsidiary Brahmaputra Cracker and Polymer Ltd (BCPL).
- City Gas Distribution:** GAIL operates its CGD business through its subsidiary & joint venture companies catering to over 19 lakh vehicles & 19 lakh households. The company caters to domestic, industrial and commercial customers through pipes as Piped Natural Gas (PNG) and in compressed form to the automotive segment as Compressed Natural Gas (CNG).
- Exploration & Production:** GAIL has participating interests in 12 E&P blocks (10 in India and 2 overseas in Myanmar). Production of oil and gas is in progress in 4 blocks and 3 blocks are in development and appraisal phases.
- Power & Renewables:** GAIL is engaged in the renewable energy space with wind & solar energy plants with capacity of 118 MW & 5 MW respectively.

International Presence

GAIL operates a wholly owned subsidiary company namely; GAIL Global (Singapore) Pte Ltd in Singapore for sourcing and sale of LNG, LNG and petrochemicals trading and overseas investments. It owns GAIL Global (USA) Inc in US which has acquired 20% working interest with Carrizo Oil & Gas Inc in the Eagle Ford shale acreage in the state of Texas, US. It has secured 5.8 MMTA of LNG from USA on long term basis for which volumes are expected from 2018. In FY16, GGSPL successfully tied up 0.5 MMTA of long term Henry Hub based gas volume in the international market.

GAIL remains committed to the principles of Corporate Social Responsibility (CSR) and as per the provisions of Section 135 of the Companies Act, 2013, spends an average of 2% of PBT of the preceding 3 years on CSR. The Company's vision of "value creation" for all stakeholders remains the guiding force behind all the social interventions. GAIL has progressively worked to reduce its carbon footprints as per Sustainability Aspirations 2020.

GAIL Gas Limited

Dun & Bradstreet D-U-N-S® No 91-655-4206

16, Bhikaiji Cama Place, R.K. Puram, New Delhi - 110066, Delhi
Website: www.gailgas.com

About the Company

GAIL Gas Ltd (GAIL Gas) was incorporated in 2008 as a wholly owned subsidiary of GAIL (India) Ltd for implementation of City Gas Distribution (CGD) projects. GAIL gas has been authorized by the Petroleum and Natural Gas Regulatory Board for implementing CGD projects in various cities of the country. GAIL Gas is engaged in the retail gas distribution business of supplying CNG to the transport sector and PNG to the domestic, industrial and commercial sectors. The company is undertaking CGD projects in Dewas, MP; Kota, Rajasthan; Sonipat, Haryana; Meerut and Taj Trapezium Zone, UP and Bengaluru, Karnataka. GAIL Gas is also undertaking city gas business in Kerala, AP, Karnataka, Rajasthan, Gujarat, Uttarakhand and North Goa through its JVs. In FY16, the CNG and PNG sales stood at 38 MMSCM and 702.8 MMSCM respectively. In Apr 2017, the company signed business transfer agreement with Rajasthan State Gas Ltd for setting retail gas infrastructure and opening GNG corridors connecting key cities in the state of Rajasthan.

Dun & Bradstreet D-U-N-S® No 91-533-9709

Pragati Bhawan, Pragati Maidan, New Delhi – 110001, Delhi
Website: www.indiatradefair.com

About the Company

India Trade Promotion Organisation (ITPO), a Mini-Ratna Category - I was incorporated in 1976 as Trade Fair Authority of India, the premier trade promotion agency of India. In 1992, the company was merged with Trade Development Authority of India, thus acquiring its present name. ITPO is the apex trade promotion body of the GoI with the objective of promoting India's trade primarily through the medium of organising trade fairs and exhibitions in India and abroad. The company functions under the administrative control of the Department of Commerce in the Ministry of Commerce and Industry. The key services provided by the company include organising various trade fairs and exhibitions, services to overseas buyers in vendor identification, establishing durable contacts between Indian suppliers and overseas buyers and assisting Indian companies in product development amongst others. During FY16, 13 national and international trade fairs/exhibitions were organized in India by the company. During FY16, the company organized India's national level participation in 22 overseas trade fairs.

Indian Oil Corporation Limited

About the company

Indian Oil Corporation Ltd. (IndianOil) is India's flagship national oil company with business interests straddling the entire hydrocarbon value chain – from refining, pipeline transportation and marketing of petroleum products to exploration & production, natural gas and petrochemicals, and globalisation of downstream operations. In FY17 it had a turnover of ₹ 4.5 trillion and profit ₹ 191 bn. The Corporation caters to nearly half of India's petroleum consumption through a countrywide network of over 46,500 customer touch-points. IndianOil's R&D Centre at Faridabad is one of Asia's finest with a prolific output. Currently it has a portfolio of 554 active patents.

IndianOil : Fuelling a Vibrant India

- **Refining:** IndianOil as a group owns and operates 11 refineries with a total refining capacity of 80.7 MMTA which is 35% of the national refining capacity. In FY17 the overall capacity utilisation (excluding Paradip refinery) was 105%. Paradip refinery achieved capacity utilisation of 85% in FY17.
- **Pipelines:** The company has an extensive pan-India pipeline network spanning over 12,840 km for transportation of crude oil and finished products with a throughput capacity of 93.7 MMTA of oil. In FY17, the division recorded a throughput of 82.9 MMT.
- **Marketing:** IndianOil has a dominant market share of 45.1 % across portfolios. It markets its products both as commodities & well recognised brands such as *Indane*, *Servo*, *XtraPremium*, *Xtramile* and *Propel*. In FY17, it sold 83.5 MMT of petroleum products, including POL, gas, petrochemicals, explosives and exports.
- **Research & Development (R&D):** The state-of-the-art R&D Centre of IndianOil has developed a range of technologies in the areas of lubricants, formulation, refining process, pipeline transportation and alternative fuels. It has a rich and diverse portfolio of 554 patents.
- **Exploration & Production:** In its quest to enhance its presence in the E&P domain, IndianOil is engaged in exploration activities in eight domestic and nine overseas blocks spread over Russia, Libya, Gabon, Nigeria, Yemen, Venezuela, Canada and US.
- **Natural Gas:** The company is the second largest domestic player in this segment. It is into Gas Sourcing, Marketing, LNG terminals and CGD networks to cater to all customer sections: Industry-Transport-Households. The Gas business of IndianOil recorded sales of 3.8 MMT in FY17 registering a growth of 4% over the previous year.
- **Petrochemicals:** IndianOil's growing petrochemicals product portfolio consists of linear alkyl benzene (LAB), paraxylene, purified terephthalic acid (PTA), polypropylene, HDPE, LLDPE & glycols. In FY17, the company sold 2.57 MMT of petrochemicals, the highest sale, registering a growth of 1.3% over last year. IndianOil's PROPEL brand of petrochemicals are exported to 73 countries.
- **AE & Sustainability:** As part of its commitment to sustainability and a low-carbon future, IndianOil is strongly focusing on innovation through R&D and Alternative Energy sources. At present IndianOil has a portfolio of 188 MW of renewable energy which constitutes 168 MW of wind power capacity and 20 MW of solar photovoltaic capacity, which will be scaled up to 260MW by the year 2020. It is also putting up second-generation ethanol & waste to energy projects.

Indian Railway Catering & Tourism Corporation Limited

Background

Indian Railway Catering & Tourism Corporation Ltd (IRCTC) is a Miniratna Category - I CPSE incorporated in 1999 under Ministry of Railways. IRCTC was formed as an extended arm of the Indian Railways to upgrade and manage catering and hospitality services. IRCTC was also incorporated to undertake promotion of domestic and international tourism through development of budget hotels, special tour packages and global reservation systems.

Business Profile

IRCTC operates in four business segments namely catering and hospitality, internet ticketing, travel and tourism, and packaged drinking water. Below is the brief description of the segments:

- **Catering & Hospitality:** Under catering and hospitality division, it operates both railway and non-railway catering and hospitality services. Railway catering includes departmental catering, mobile catering, static catering like food plazas, janahars, executive lounges, budget hotels, etc.

With average booking of 3000 meals per day through 'E-catering' - 409 A and A-1 class stations have been covered for e-catering. Mobile app has been launched for online ordering while on move, which has now under its umbrella leading national and international food chains.

- **Internet Ticketing:** The internet ticketing segment offers services like E-ticketing, mobile booking, co-branding, banner advertisement, unreserved ticketing. E-ticketing accounts for 60% of reserved tickets in India. On an average, more than 6 lakhs tickets are sold daily through IRCTC's website. Mobile app IRCTC Rail Connect launched on Android platform which is fully secured and facilitates the customer with faster, hassle free, seamless & cashless transactions with advanced features. Other latest initiatives by the internet ticketing section are launching of Hindi e-ticketing website, booking through mobile e-wallets, facility of Online Boarding Point Change, IVRS based Passenger Feedback etc. Further, facility of cancelling PRS counter ticket on IRCTC website has been made online.

Optional Travel Insurance for Rail Passengers on was launched. The Insurance scheme now at zero cost has the coverage of up to 10 Lakh for death and permanent total disability and 7.5 lakh for permanent partial disability.

- **Travel and Tourism:** Under travel and tourism, IRCTC runs various tourists trains and also provides tour packages, educational tours and air packages amongst others. IRCTC's tourism portal www.irctctourism.com is a one stop solution for all the Travel and Tourism services. IRCTC's online air-ticketing micro-site provides the services of Domestic as well as International Air-ticket booking at very competitive prices. The website www.air.irctc.co.in has become quite popular in a very short span of time, IRCTC AIR android app has also been launched to further facilitate the passengers.
- **Packaged Drinking Water:** IRCTC operates seven Rail Neer plants located at Delhi, Patna, Ambernath, Amethi, Palur, Parassala and Bilaspur which together produces approx 27 crores bottles a year. One more plant at Nagpur is expected to be commissioned soon. IRCTC also operates Water Vending Machines (WVMS) to provide purified, chilled and potable drinking water to railway passengers at an affordable rate. IRCTC has commissioned more than 1200 WVMS till date.

Indian Rare Earths Limited

Dun & Bradstreet D-U-N-S® No 91-844-8056

Plot No. 1207, Veer Savarkar Marg, Prabhadevi, Mumbai – 400028, Maharashtra
Website: www.irel.co.in

About the Company

Indian Rare Earths Ltd (IREL) was incorporated in 1950 jointly owned by the GoI and Government of Travancore for taking up commercial scale processing of monazite sand for recovery of thorium. IREL became a complete Central Government undertaking in 1963 under the administrative control of Department of Atomic Energy. IREL is primarily engaged in mining and separation of heavy minerals like limenite, rutile, zircon, sillimanite, garnet and monazite from beach sand. The company also undertakes processing of monazite to yield thorium compounds, rare earth chlorides and tri-sodium phosphate. The company operates through four production plants with rare earths division at Aluva in Kerala and minerals division at Chavara, OSCOM and Manavalakurichi in the state of in Kerala, Orissa and TN respectively. In FY16, IREL commissioned Monazite processing plant (MoPP) at its OSCOM unit. During the same period, the OSCOM unit produced 183,402 MT of Ilmenite along with other associated minerals.

Ircon International Limited

About the Company

Ircon International Ltd (IRCON), incorporated in 1976 by the Ministry of Railways, GoI, was previously known as Indian Railway Construction Co Ltd. It covers the entire spectrum of construction activities in the infrastructure sector as a turnkey construction company. The company has wide spread operations not just across several states in India but also has active presence in overseas in Malaysia, Nepal, Bangladesh, Mozambique, Ethiopia, Afghanistan, UK, Algeria and Sri Lanka.

Business Profile

IRCON is primarily engaged in a wide range of construction activities. Till FY16, the company had completed more than 120 projects in more than 24 countries across the globe, and 376 projects in India. Its areas of expertise include:

- Railways:** Services such as construction of new railway lines, rehabilitation/gauge conversion of existing lines, station buildings and facilities, bridges, tunnels, signalling and telecommunication works, among others. In FY16, railways contributed nearly 79% to the company's operating income.
- Highways:** IRCON undertakes construction of flexible pavement/rigid pavements, and complete Mechanization of Highway Construction; accounting for nearly 9% to its operating income in FY16.
- Electrical:** Turnkey project management including design, supply, erection, testing and commissioning in the field of sub-stations; railway electrification works; industrial electrification; power supply distribution network; and HT Grid & Traction Sub-station among others. This segment accounted for about 8% to the company's operating income.
- Buildings:** Construction of commercial buildings, industrial complexes, residential buildings, institutional buildings, airport, hangers, hospitals, business centers, etc along with providing services like electrification, plumbing, fire-fighting.
- Others:** Apart from the above main segments, the company also operates in various other segments including; Bridges/flyovers, signalling & telecom, mechanical, aviation, coach factory and station building among others.

IRCON operates four subsidiaries and six JVs in India. In May 2016, it formed one more joint venture company namely; Bastar Railway Pvt Ltd.

Performance & Project Highlights

During FY16, IRCON secured orders worth ₹ 74.6 bn and the order book position stood at ₹ 175.69 bn. During the same period, domestic projects accounted for 85% of its total income. The company is currently executing six major projects in foreign countries.

Some of its major ongoing projects include;

- Katra-Qazigund section including Dharam-Qazigund section, including additional works, for Northern Railway, valued at ₹ 95.2 bn
- Setting up of new Rail Coach Factory at Rae Bareilly, including additional works, for Ministry of Railways, valued at ₹ 23.38 bn.
- Construction of Corridor-I of East Corridor between Kharsia to Dharamjaygarh and Spur Line in the State of Chhattisgarh, for Chhattisgarh East Railway Limited, valued at ₹ 14.2 bn.
- Construction of Embankment, Track, all civil works, major and minor bridges (except Rupsha) & culverts and implementation of EMP of Khulna-Mongla Port Rail Line in Bangladesh, valued at ₹ 9.71 bn.
- Installation of a double track line (93 km) in Algeria awarded by ANESRIF, Ministry of Transport, Government of Algeria, at a value of ₹ 11.03 bn.

Mahanadi Coalfields Limited

About the Company

Mahanadi Coalfields Ltd (MCL) was incorporated in 1992 as a subsidiary of Coal India Ltd by taking over the assets and liabilities of South Eastern Coalfields Ltd in respect of mines in Odisha. The GoI has accorded Miniratna – category 1 status to MCL. The company is mainly engaged in the extraction of coal from a vast area of 2,723 sq km, an estimated 24.7% of the Indian coal reserves. It operates two coalfields namely Talcher and IB Valley coalfields comprising of 11 mining areas with six underground and 16 opencast mines, two central workshops and sales offices at Kolkata and Bhubaneswar. MCL has employed 22,397 people as on Mar 31, 2016.

Business Overview

The total sanctioned coal projects of MCL are 51, out of which two are exhausted projects, 34 are completed projects and 17 projects are on-going projects. The total production capacity of sanctioned projects is 224.41 Mty and a sanctioned capital outlay of ₹ 116.7 bn.

MCL has also diversified into power generation, power transmission, coal logistics and renewable energy alternatives. Mahanadi Basin Power Ltd (MBPL) was incorporated in 2011 as an SPV with 100% shares held by MCL. MBPL has a power generation capacity of 2x800 MW through Pit Head Power plant at Basundhara coalfields. For power transmission business, a JV company named Neelanchal Power Transmission Company Pvt Ltd was incorporated in 2013. MCL also formed a JV company named Mahanadi Coal Railway Ltd in 2015 to build, construct, operate and maintain identified rail corridor projects including doubling, third line, traffic facility projects for coal connectivity.

MCL has also invested in renewable solar energy segment through a two MW photovoltaic solar power plant in FY15. During FY16, a total of 2,111,025 Kwh of energy and 9479 RECs were earned due to solar plant. The company also initiated 12 solar rooftop power plants.

Major Highlights

Some of the major highlights of the company include:

- During FY16, MCL achieved a coal production of 137.9 mn tonnes, a growth of 13.6% over the previous fiscal.
- The most of the coal production was from opencast mines with the production by surface miners accounting to 91.1% of the total production in FY16 as against 88% in the previous fiscal.
- Coal off-take of the company during FY16 reported a growth of 14% to 140.2 mn tonnes.
- 25% of CIL production value was contributed by MCL in FY16.
- During FY16, the total dispatch of coal stood at 140.2 MT which include the coal dispatch of 91.2 MT to the power sector, 0.24 MT for fertiliser sector, 0.004 MT for cement sector and 48.8 MT for other sectors.
- In FY16, Output per Manshift stood at 18.9 tonnes/manshift as against 17.1 tonnes/manshift in FY15.
- In FY16, OB removal achieved is 85.6% of the target with growth of 10.3% over the previous fiscal.

Mahanagar Telephone Nigam Limited

Dun & Bradstreet D-U-N-S® No 87-179-4093

Mahanagar Doorsanchar Sadan, 9, CGO Complex, Lodhi Road, New Delhi – 110003, Delhi
Website: www.mtnl.net.in

About the Company

Mahanagar Telephone Nigam Ltd (MTNL) was incorporated in 1986 to provide telecommunication services in the metropolitan cities of Delhi and Mumbai. It got Navratna status in 1997. Mangalore Refinery and Petrochemicals Limited

Dun & Bradstreet D-U-N-S® No 91-575-8317

Kuthethur P O Via Katipalla, Moodapadav, Mangalore - 575030, Karnataka
Website: www.mrpl.co.in

About the Company

Mangalore Refinery and Petrochemicals Ltd (MRPL) was established in 1988 as a joint venture between Hindustan Petrochemical Corporation Ltd. and AV Birla Group. In 2003, ONGC acquired the entire stake of AV Birla Group and infused further equity capital of ₹ 6bn in MRPL, thus making it a majority held subsidiary of ONGC. Initially, the oil refinery was set up with a processing capacity of 3 MMTPA and was later augmented to its present capacity of 15 MMTPA. The company manufactures petroleum and petroleum products for domestic and international consumers across various industries such as mining, construction, power, agriculture, fertilizers and paint. MRPL's products include liquid or gaseous fuels, lubricating oils, greases, liquefied petroleum gas, high speed diesel, motor spirit, bitumen, sulphur, pet coke, furnace oil, naphtha and aviation turbine fuel. In FY16, the company processed 15.53 MMT of crude oil compared to 14.63 MMT in FY15. In FY16, the company achieved direct sales of 1470 TMT compared to 820 TMT during FY15 and retail sales of 4.8 TMT compared to 2.53 TMT during FY15.

The National Small Industries Corporation Limited

About the Company

The National Small Industries Corporation Ltd (NSIC) was incorporated in 1955. NSIC has been certified as Miniratna category-I CPSE under Ministry of Micro, Small and Medium Enterprises. NSIC operates through its countrywide network of offices and Technical Centres in the country. In addition NSIC has set up Training-Cum-Incubation Centres in different parts of the country. The company has set up seven technical service centres at Chennai (TN), Howrah (Kolkata), Hyderabad (Telangana), Okhla (New Delhi), Rajkot (Gujarat), Raj Pura (Punjab) and Aligarh (UP). To manage operations in African countries NSIC operates from its office in Johannesburg, South Africa.

Key offerings

The company mainly offers integrated support services under marketing, technology, finance and other support service.

- Marketing support** – Marketing has been identified as one of the most important tools for business development. It is critical for the growth in today's intensely competitive market. NSIC as a facilitator has devised a number of schemes to support enterprises in their marketing efforts, both in domestic and foreign markets. The schemes include Raw Material Distribution Schemes, Single point Registration for Government Purchase, Consortia and Tender Marketing, NSIC B2C Portal providing Marketing opportunities for MSMEs (www.msmeshopping.com), MSME Global Mart B2B web portal for MSMEs, (www.msmemart.com), NSIC Infrastructure Projects for MSMEs. NSIC facilitates participation of MSMEs in select in National and International Exhibition to showcase their competencies and products. Further, large and institutional buyers such as Railways, Defence, Communication Departments and large companies are invited to participate in buyers-seller meets and marketing campaigns to apprise micro and small enterprises regarding terms and conditions, quality standards etc. required by the buyers. These meets are aimed at vendor development amongst MSEs for the bulk manufacturers.
- Credit support** – NSIC provides credit facilitation to MSMEs through its various schemes, like financing for procurement of raw material and marketing activities (short term), Meeting Credit needs of MSMEs through Tie up arrangement with Banks.
- Technology support** – Micro, Small and Medium Enterprises need to develop and implement a technology strategy in addition to financial, marketing and operational strategies and adopt the one that helps integrate their operations with their environment customers and suppliers. NSIC offers MSMEs various support services through its technical services centres. These centres are located at New Delhi, Rajkot, Chennai, Howrah, Hyderabad, Aligarh and Rajpura. The support services include: advise on application of new techniques, material testing facilities through accredited laboratories, product design including CAD, common facility support in machining, EDM, CNC, etc, energy and environment services at selected centres as well as classroom and practical training for skill upgradation. In addition to this, NSIC has established Software Technology cum Business Parks at New Delhi and Chennai for providing the space to MSMEs in software development and to IT/ITES/MSME units not registered with STPI.
- Incubation of unemployed youth for setting up of new MSMEs** – The program facilitates setting up of new enterprises all over the country by creating self-employment opportunities for the unemployed persons. It provides integrated services such as training for entrepreneurial skill development, selection of small projects, preparation of project profiles/ reports, identification and sourcing of plant, machinery and equipment and facilitating sanction of credit facility, amongst others. NSIC has also

lined up vocational training centres on the model of NSICs rapid incubation program in African countries.

- **Performance and Credit Rating scheme for small Enterprises** – On behalf of the Ministry of Micro, Small & medium Enterprise, NSIC is implementing “Performance & Credit Rating Scheme” for micro and small enterprises (MSEs) The rating serves as a trusted third party opinion on the unit’s capabilities and credit worthiness. A good rating enhances the acceptability of the rated unit in the market and also makes it access to quicker and cheaper credit and thus helps in economizing the cost of credit. The scheme is being operated through accredited rating agencies.
- **International cooperation** – NSIC has been instrumental in developing MSMEs and related policy framework in many developing countries. NSIC also focusses on creating enterprise to enterprise cooperation between MSMEs of India and other developing and developed countries. This has also led to setting up of number of MSME projects in these countries.

National SC –ST Hub at NSIC

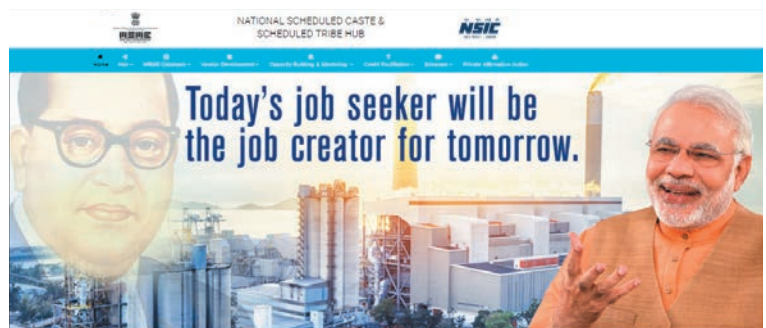

The Government of India is taking numerous initiatives for the growth of MSME sector in India. The Public Procurement Policy 2012 is one such step in this direction, which states that 20% of total procurement of goods and services by Central Ministries and CPSEs shall be made from Micro, Small and Medium Enterprises (MSMEs) out of which 4% shall be made from Micro & Small Enterprises (MSEs) owned by SC & ST entrepreneurs. In order to ensure benefits of growth spread across all sections of the society especially SC-ST MSEs, the Hon’ble Prime Minister Shri Narendra Modi launched The National SC/ST Hub (NSSH). The NSSH Hub aims at increasing the market access and ensures higher participation of SC/ST entrepreneurs in public procurement and also promotes creation of new enterprises. It is a flagship programme of Ministry of MSME being implemented through The National Small Industries Corporation Limited (NSIC). The NSSH envisions adopting progressive SC-ST Entrepreneurs to facilitate them in increasing procurements by CPSEs. NSIC has taken many initiatives and formulated several schemes to be undertaken by NSSH such as:

- NSSH launched Special Marketing Assistance Scheme (SMAS) which provides marketing support to the SC-ST MSEs to visit or participate in various exhibitions in India and abroad thereby increasing marketability of their products.
- Single Point Registration Scheme of NSIC provides up-to 100% subsidy to SC-ST MSEs for participation in tendering process of various CPSEs.
- Special Performance and Credit Rated scheme facilitates SC-ST MSEs in availing financial support at attractive interest rates.
- Special Vendor Development Programmes have been organized all over the country along with various CPSEs to aid SC-ST MSEs understand the requirements and procurement procedures of CPSEs.
- NSSH has also undertaken capacity building initiatives to help SC-ST MSEs increase their capabilities to increase their revenues. To bridge the gap between SC-ST MSEs and CPSEs, NSSH has initiated discussion with the CPSEs and other government departments to understand their challenges and initiate steps to overcome their issues and increase procurement.
- NSSH also envisages coming up with Business Facilitation Centres (BFC) to provide professional real time on ground support to SC-ST MSEs. A platform to develop a technology platform to address the needs of CPSEs and SC-ST MSEs providing digital interface to connect with is also in offering by NSIC.

Corporate Social Responsibility (CSR) Initiatives

The NSIC CSR activities are spread across the country in various sectors like education, health, disability, capacity building and expansion of human capabilities. Some of the key CSR initiatives undertaken in Financial Year 2016-17 include:

- **Health Care Including Preventive Health Care:** Conducted Eye camps , performed cataract Surgeries and provided spectacles for the children. Organised Health Camps, provided Artificial Limbs, Wheel Chairs, Tri-Cycles, Hearing aids and Crutches and Medical Assistance to Differently Aabled. Provided Chemotherapy, Radio Diagnosis, Surgical needs, Prosthetics, Nutritional support, Educational support and services of Physiotherapist and counsellor to cancer affected children below poverty line.
- **Vocational Training:** Provided Vocational training on courses like English Speaking, Personality Development, Handicraft, Music , Computer , Beautician , Knitting , Tailoring and Dress Designing to Visually Impaired students, Computer training to women, students, specially abled and under – privileged sections of the Society.
- **Education:** Provided Educational Facilities to under Privileged children by providing remedial classes , Set-up of a modern library with small Computer Lab and a mini school bus for transporting poor and needy students.
- **Safe Drinking Water:** Constructed RCC Room, Borewell and Installation of R.O. Water Plant. Provided Safe Drinking Water by installation of Hand Pumps. Contributed ₹ 4.4 million to Swacch Bharat Kosh.
- **Environment Sustainability:** Provided Solar High Mast Street Lights in the market area.

National Textile Corporation Limited

Rashtriya Chemicals and Fertilizers Limited

Background

Rashtriya Chemical and Fertilizers Ltd (RCF) is amongst the leading fertilizer and chemical manufacturing company which was incorporated in the year 1978. The company is a GoI undertaking with 75% equity participation held by GoI. RCF has been conferred with the status of Miniratna Category – I CPSE by GoI. It manufactures urea, complex fertilizers, bio-fertilizers, micro-nutrients, water soluble fertilizers, soil conditioners and a wide range of industrial chemicals.

Business Profile

RCF is primarily engaged in manufacturing and sale of fertilizers and industrial products. The industrial products manufactured by RCF includes mono methylamines, dimethylamine, trimethylamine, nitric acid, sulphuric acid, demethyl formamide, formic acid, argon, sodium nitrite, sodium nitrate and ammonium bi-carbonate amongst others. The fertilizer segment markets its products under the brands *Ujjwala, Suphala, Microla, Biola and Sujala*. RCF also produces around twenty industrial chemicals used for the manufacture of dyes, solvents, leather, pharmaceuticals and a host of other industrial products. RCF is also engaged in marketing of SSP and imported fertilizer inputs like, DAP, MOP & NPK fertilizers.

RCF operates two manufacturing units in Maharashtra, at Trombay and Thal. At Trombay a major part of the water requirement is met through a Sewage Treatment Plant thereby sparing substantial quantity of water for the city of Mumbai. In order to eliminate the intake of Municipal water the company is setting up an additional sewage treatment plant with a capacity to treat 22.75 Mn litres per day (MLD) of municipal sewage to produce about 15 MLD of treated water.

RCF has also set up 2 MW grid connected Photovoltaic Solar power plant at Trombay, Mumbai for captive consumption. The company along with Gujarat State Fertilisers Corporation has been nominated by the Govt to set up 1.3 MMT ammonia and urea plant in Chahbahar, Iran using natural gas as feedstock with an investment of US\$ 903 mn. Company has lined up a number of Capex Schemes such as Gas Turbine Project at Thal, CO2 Compressor & Process Air Compressor revamp at Thal, Urea revamp at Trombay, revamp of Process Air Compressor at Trombay, GT at Trombay, with an investment of ₹ 1750 Crore which will be spent over the next 3 years. Company has entered into JV agreement with Coal India Ltd, GAIL (India) Ltd and The Fertilizer Corporation of India Ltd (FCIL) for incorporation of the company namely Talcher Fertilizers Ltd to establish and operate new coal gasification based Fertilizer Complex at Talcher, Odisha along with power plant and associated facilities at Talcher Unit of FCIL and to market its products.

RCF has also established 12 static soil testing laboratories located in Mumbai, Kolhapur, Nagpur, Ahmednagar, Satara, Latur Hassan, Vijayawada, Kolar, Suryapet, Raipur, Nanded and Lucknow. RCF also operates six mobile soil testing labs.

Operational Highlights of FY17

In FY17, RCF produced 3.32 MMT of fertilizers including 2.55 MMT of urea, and 0.46 MMT of suphala 15:15:15 as against 3.18 lakh MT of fertilizers including 2.55 MMT of urea, 0.46 MMT of suphala 15:15:15 and 0.17 MMT of suphala

20:20:0 produced during the previous year. During the year, the Company also produced 1.24 MMT of Nitrogen (N), 0.071MMT of Phosphate (P₂O₅) and 0.070 MMT of Potassium (K₂O) as compared to 1.27 MMT of Nitrogen(N), 0.10 MMT of Phosphate (P₂O₅) and 0.07 MMT of Potassium(K₂O).

During the year, RCF sold 2.56 MMT of urea, 0.48 MMT of suphala 15:15:15, and 0.16 MMT of other products such as DAP, MOP, SSP, Rajphos, NPK etc., compared to 2.65 MMT of urea, 0.44 MMT of suphala 15:15:15, 0.19 MMT of suphala 20:20:0 and 0.10 MMT of other products during the previous year. In FY16, total sale of manufactured fertilizers by RCF was 3.05 MMT. In FY16, RCF produced 4.54 LMT of major industrial chemical products.

Joint Venture Companies

The company has three JVs namely FACT-RCF Building Products Ltd (FRBL), Urvarak Videsh Ltd (UVL) and Talcher Fertilizers Ltd (TFL). FRBL was incorporated with equity participation of RCF and Fertilizers and Chemicals Travancore Ltd to set up a Rapidwall project at Kochi. UVL was incorporated as a SPV with equity participation of RCF, National Fertilizers Ltd and Krishak Bharti Co-operative Ltd for setting up JVs in India and abroad for manufacturing, mining, long term tie ups for nitrogenous, phosphatic and potassic fertilizers and fertilizer raw materials including rendering Consultancy services. Talcher Fertilizers Ltd was incorporated to utilise vast reserves of coal in the country to produce Ammonia / Urea through the coal gasification route. If this project succeeds then it will be a game changer in the industry.

Corporate Social responsibility

Under CSR, RCF undertakes several projects in the areas of rural development, promoting health care and education aimed for the benefit of needy and for general good of the society. Some of these include:

- Adopting village, mid-day meal, special measures for SC/ST and under-privileged
- Supporting schools, at its two units, which impart education in Marathi, Hindi and English mediums to students from Nursery to 10th Standard.
- Offering number of scholarships to students of SC/ ST/ OBC communities for pursuing higher studies.
- Operating two farmers training institutes located in Thal and Nagpur.
- Providing drinking water to seven villages around Thal unit through pipelines laid down from the water reservoir in the unit.
- Engaging Wockhardt Foundation and administering free primary health care through mobile Medical Vans.
- RCF has undertaken a unique program named 'RCF Super 30' under which about 30 underprivileged but talented students of Maharashtra are provided free residential coaching of 11 months to enable them to get admission in IIT/NIT and other premier engineering colleges. With this initiative, the company aims to develop engineers to contribute and take forward the 'Make in India' mission.

General Insurance Corporation of India

Dun & Bradstreet D-U-N-S® No 65-073-3371

Suraksha, 170, Jamshedji Tata Road, Churchgate, Mumbai – 400020, Maharashtra
Website: www.gicofindia.com

About the Company

General Insurance Corporation of India (GIC) was formed in Nov 1972 as a private company limited by shares. In 1973, the general insurance business in India was nationalized and general insurance companies were merged to form GIC as the holding company with four subsidiaries. In 2000, GIC was notified as the Indian Reinsurer and in 2003, GIC ceased to be a holding company of its subsidiaries. GIC was formed for the purpose of superintending, controlling and carrying on the business of general insurance. As a reinsurer, GIC provides reinsurance to the direct general insurance companies in the Indian market. GIC in international business domain serves as a reinsurance solutions partner for the Afro-Asian region and has also started the reinsurance programmes of several insurance companies in SAARC countries, SE Asia, ME and Africa. The corporation has overseas offices located in Dubai, Malaysia, London and Moscow. In FY16, GIC's net incurred claim ratio and solvency ratio stood at 85.02% and 3.48% respectively. During the year, total net premium written by GIC grew 18.2% y-o-y to ₹ 163.7 bn.

Learning & Economic Insights Group

Enhancing customer experience through knowledge, research and insights

Dun & Bradstreet's **Learning & Economic Insights Group** conducts high-end business research and analysis. Tracking the economic scenario and business landscape closely, it has also been our constant endeavour to place the success stories of Indian Companies on a global platform through our knowledge almanacs like **"India's Top 500 Companies"**, **"India's Top Banks"**, **"India's Leading PSUs"**, **"HR Best Practices"**; persona-based roundtables like **CFO series**, **CMO series**, **CHRO series**, **CTO/CIO series**, **CSO series**; and **SME series** to name a few. It also provides a suite of professional trainings, educational courses. LE&IG also creates platforms for organizations to create brand awareness and provides them an opportunity to showcase their products, services, strengths and capabilities, amongst current and potential customers, investors, suppliers, government bodies, regulators and other stakeholders.
